Testimonials

Business Directory

Big Improvements Tutoring has been using the site for the last year, and we can say that it's worthwhile. There's plenty of tutoring businesses, but ours has a unique way of inspiring confidence in struggling students, and what we love about the site is that we have the chance to let people know about why we are different and it goes to a different audience than other marketing channels give. This site has more than paid for itself and I'd recommend it.

Michael Clark, founder of Big Improvements Tutoring

We've been advertising on the business directory for a couple of years now and have definitely noticed an increase in contact since we signed up. In the Canberra music industry it is difficult to find gigs and break into the live music scene, but the AllClassifieds business directory has allowed us to do so with their easy and affordable advertising. It's also great that we're able to include a photo & a decent amount of text to explain exactly what we have to offer.

Kristine Lawler, Groove Dot Com

The business directory has provided a lot of extra business for me. I've been advertising in a few different categories, which I think has given me the edge by increasing the visibility of my ad. Working in building & maintenance there's always lots of competition around so it's been great to find a simple way of advertising to such a big audience. It's definitely been worthwhile advertising for us.
